Designer Developer

Profile

Creative and tech-savvy Berlin-based Designer & Developer with 7+ years of experience in motion, branding, and development. I build scalable motion systems for brand + product touchpoints (web, paid, social) and optimize them with AI. Highly committed, enthusiastic, and solution-oriented with a passion for driving impactful, brand-defining projects.

Awards

Professional Experience

Senior Motion Designer & Senior Brand Designer, Premium Gruppe
03/2024 - Present

- Developing corporate brand and motion guidelines and 360° communication for Politico, WELT, N24, and Business Insider
- Leading a creative team of three plus freelancers in producing key visuals for OTT video content, driving revenue growth on paid channels (Amazon, Vodafone, JOYN)
- Automating asset management with AI-driven workflows, reducing search, naming, and hand-off time by 50%

Motion Designer, WeltN24 GmbH
12/2019 - 02/2024

- Designed and animated on-air graphics, trailers, promotions, openers, advertising campaigns, and show designs, contributing to a +27% TV market share increase since 2019 and boosting revenue through sponsor integrations
- Created event packages, visuals, sponsor loops, and live graphics for conferences featuring state officials and C-level executives
- Collaborated across disciplines (editing, production, directing, editorial, marketing, sales) to deliver creative problem-solving

Freelance React Developer & UX/UI Designer
02/2017 - Present

- Developing responsive (web-)apps with React, React-Native, Next.js and TypeScript for SMEs
- Researching and designing wireframes, prototypes and user-centered design solutions
- Integrating design and development flows
